**Re: ATCO Electric Yukon's (AEY)
Temporary Rate Adjustment Rider (Rider R1) Application Update**

In accordance with Board Order 2025-04 dated March 10, 2025, the Board requested ATCO Electric Yukon (AEY) to provide updates to its Temporary Rate Adjustment Rider (Rider R1) by March 14, 2025. These updates are to reflect implementation dates effective May 1, 2025 and June 1, 2025.

Enclosed is AEY's updated Application, including updated Schedules and Tables requesting to use Rider R1, Temporary Rate Adjustment Rider, for Industrial Rider R deferral collection.

In that same Board Order, the Board directed AEY to notify the public of the Application by March 14, 2025. Due to the quick turnaround, AEY would like to notify the Board that communication has gone out to the papers, website, radio, and bulletin boards.

Should you have any questions on the above matter, please do not hesitate to contact me at Tony.Martino@atco.com or 780-420-5493.

Yours truly,

Tony Martino, CPA, CMA
Senior Manager, Regulatory
